

Get a good opening foot in the world of software engineering! Striving to keep learning!

EDUCATION				
Year	Degree	University/Board	Institute	% / CGPA
Pursuing	BS (Hons)	Ahmedabad University	School of Arts and Sciences	3.44/4.00 CGPA
2020	HSC (Science)	Pearson	SCLP SAMAJ SENIOR SCHOOL	8.0 %
2018	SSC (Science)	Pearson	SCLP SAMAJ SCHOOL	8.4 %
ACHIEVEMENTS AND ACCOMPLISHMENTS				
Open Source Contribution Contributed to AU Winter Of Code, where AU PClub is developing its website. I made the first Pull Request and got it accepted.				Dec'22
CERTIFICATIONS				
The Complete 2023 Web Development Bootcamp This was an online course which Eshaan had taken to learn about how the web works and how to develop modern day applications, Eshaan understood how the front end is works and how the back-end communicates with the front end to make seamless apps.				Feb'22 - May'22
PROJECTS				
Personal				Oct'22 - Dec'22
AU Student Time Table Planner Summary: Students in AU face problems in deciding their timetable before course registrations. This app will allow them to add/drop courses and view their timetable. Skills Used: React, Nodejs, TailwindCSS, MongoDB Team Size: 2 Key Outcomes: Got to learn about how complex and tricky edge cases exist in developing such a high profile CRUD app. CI/CD was very essential for us in the development of this app.				
Personal				Dec'22
AU Vault Summary: A 3 factor Authentication System to store highly classified documents for Professors of AU. Encrypted Password mechanism, email OTP verification, Face Authentication Skills Used: React, Node, MongoDB, ExpressJS Team Size: 3 Key Outcomes: Developed a tough integrated app, we actually divided the app in to 2 parts, the first part was until the 2 factor auth, then the second part was the Face authentication, Integrated these 2.				
WORK EXPERIENCE				
Arkay Apps, Bhuj				Jul '22
Front-end React Developer <ul style="list-style-type: none"> Develop Front-end CRUD - (Create, Read, Update, Delete) operational components. This includes Signup / Login modules. Forms to collect data for an organisation serving 1,00,000 of end users. Developed a Whatsapp Automated Reciept Generator interface to automatically send the donors a Personalised payment receipt- which includes amount of donations, where they intend it to be used etc, dates of donation and some other details. 				
TECHNICAL SKILLS				
Softwares: Vs Code, MS office,				
Languages: Python, Javascript, Java, C				
Framework / Libraries: ReactJs, NodeJs, MongoDB, Postgre, MongoDB, SQLplus, Oracle				
Tools / Technologies: GraphQL, RestAPI, Postman
